The vulnerability varies from region to region, which often turn into disasters causing significant disruption of socio-economic life of communities leading to loss of life and property.

The **India Disaster Resource Network (IDRN)** is a web-based platform for managing the following:

- c) Critical supplies for emergency response.

It was initiated by Ministry of Home Affairs (MHA) under the GoI – UNDP Disaster Risk Management (DRM) programme with the aim to build up a systematic inventory of equipment and skilled human resources, so that disaster managers can find the location and details of the resources for immediate response.

National Institute of Disaster Management (NIDM), Ministry of Home Affairs, Government of India, is managing the IDRN portal since June 2008. The online inventory of resources i.e., IDRN, is hosted in the National Informatics Centre (NIC), New Delhi. NIDM is responsible for maintaining and monitoring the data and the portal. Authorized government officers have access to the portal and the District Authorities are authorized for uploading and updating the data time to time after
